Research interest:

Dr Lorusso has been involved in gynaecological oncology research since more than 20 years and has conducted approximately 108 phase I-IV clinical trials in gynaecological malignancies in the last 10 years. At present she is Principal Investigators of 30 active studies. Dr Lorusso is responsible of the Clinical Trials Committee of the MITO (Multicentre Italian Trials in Ovarian Cancer and Gynaecological Malignancies) Group, which includes more than 180 Italian centres involved in gynaecological oncology research. She is member of Board of Directors of Gynaecological Cancer Intergroup which includes 23 international research groups promoting and conducting high quality, practice changing clinical trials to improve the outcome for women with gynaecological cancers. She is ESGO (European Society of Gynecological Oncology) Council Member, deeply involved into the promotion of the health and well-being of women with gynaecological cancers through **prevention, research, excellence in care and education**. Dr Lorusso is also active member of ENGOT (European Network of Gynaecological Oncological Trial groups) an international organisation which coordinates and promotes clinical trials within Europe for patients with gynaecological cancers. She chairs the Gynecological Cancer Accademy (GCA), an organization created to promote networking and mentorship of the future leaders in the treatment of gynecologic cancers in Europe. She has also co-authored more than 354 oncology publications on peer reviewed journals She is author of national and international guidelines on treatment of ovarian, cervical, endometrial, vulvar cancer and rare gynecologic tumors. Dr Lorusso's key goals are to promote clinical research, international and national collaboration and patients and clinicians' education and to ameliorate global treatment of gynaecological malignancies.
